Java version 변경

- 1. 스프링 5.x 버전을 사용하기 위해 자바 1.8버전이 가장 좋습니다.
- 2. pom.xml의 <plugin> 태그 중 maven-compiler-plugin의 내용 변경
- 3. 이후 프로젝트를 선택한 상태에서 Maven -> Update Project를 실행

1. web-xml의 한글처리

```
<filter>
    <filter-name>encodingFilter</filter-name>
    <filter-class>
        org.springframework.web.filter.CharacterEncodingFilter
    </filter-class>
    <init-param>
      <param-name>encoding</param-name>
      <param-value>UTF-8</param-value>
    </init-param>
    <init-param>
      <param-name>forceEncoding</param-name>
      <param-value>true</param-value>
    </init-param>
  </filter>
  <filter-mapping>
    <filter-name>encodingFilter</filter-name>
